Coventry Community Digital Radio Rates Card

Coventry SSDAB

V9 – May 2025

Bitrate EEP1	Bitrate UEP3		Price/year	Price/month	CDSP	Price/month
N/A	24		£1,642.59	£136.88	£821.29	£68.44
N/A	32		£2,023.45	£168.62	£1,011.72	£84.31
24	48		£2,785.17	£232.10	£1,392.59	£116.05
32	64		£3,546.89	£295.57	£1,773.45	£147.79
64	128		£6,593.79	£549.48	£3,296.89	£274.74

ALL SERVICES ARE SUBJECT TO A £300 connection fee

Other bitrates and error correction rates are available, please enquire for further details

All services are charged equally, excepting community stations as per original Ofcom license application

Contracts offered are on a rolling monthly basis, payment in advance. Invoices are raised on the first of the previous month, to be paid by 1st of the month to which carriage relates. If carriage is unpaid by 1st of month then contract will be deemed void and service discontinued without notice and full connection fee will be due for resuming service

Tariff may be altered with 1 month advance notice given.

All prices exclude VAT.

Optional Extra Charges

SLA	**Time to fix**	**Financial repayment**	**Dual feed**	**Annual cost**
Standard	Up to 1 working day	No	No	£0
Enhanced	8 hours	Yes	Yes	£9k

Standard SLA is comparable with other SSDAB operators and meets the Ofcom requirements for a “good” level of service.

Time to fix excludes overnight hours. This SLA is contracted directly with our technical partner.

Audio is ingested into the multiplex unprocessed via web stream. A dedicated encoder to be located at your studio can be rented for a cost of £1200/annum. Audio processing can be provided at a cost of £350/annum. These services are contracted directly with our technical partner.

UEP3 is the “standard” error correction rate and should deliver the coverage as indicate on the Ofcom coverage map. UEP1/EEP1A is an enhanced level of error correction and may provide better coverage in marginal signal areas. However it uses more capacity therefore the cost is higher for the same audio bitrate.

Images/fixed text. We deliver station logo and text via “SPI” data – we do not use X-PAD as it diminishes the quality. We charge £250 one-off fee to prepare your image and fixed text and £10/month for the data carriage cost for fixed test, £20/month for dynamic text.
